(Kris Kristofferson)

Maybe you bought all the lines that she told you
Maybe they tore you apart
Maybe she shrugged off your finest emotions
Carelessly walked on your heart
Life ain't for sissies and you ain't no sissy boy
And only the strongest survive
Bad love is better than no love at all at least you know
you're alive.

And just thank God you still got your feelings
And you're free to be easy and warm
Cause from here to the end is what matters my friend
And you're right at the peak of your form still in the eye
of the storm.

Maybe you tried something too hard to handle
And maybe you took you a fall
Is it true that if not for the pain that you're feeling
It wouldn't have mattered at all
(Tell the truth) all there is left between living
And dying is loving or leaving alone
You can take it or leave it but make up your mind
Or fall on your ass on your own.

And just thank God you still got your feelings
And you're free to be easy and warm
Cause from here to the end is what matters my friend
And you're right at the peak of your form still in the eye
of the storm...
