There's a song I'd like to sing

Do you know the song I mean

It don't know the way it sound the same

But it's always good to sing

Anyone one can say the words

Anyone can sing the tune

If you take a little time

I can teach this song to you

And we can get to know each other

Like a sister and brother

Like a father and a mother

Like a woman and a man

And we can sing along together

Just enjoy in tune it's over

You don't need to last forever

If we want it to be again

Maybe it don't mean a thing

It's a pretty little tune

It's a song I'd like to sing

That I'd love to sing with you
