[Mac Daddy]

I was thirteen, first on the block, makin' niggas jock  
Cuz before me you never saw a shorty rock (rock)  
My life did a three-sixty

Girls that didn't like me in class all of a sudden wanna  
fix me

(Uhh)

I went from wakin' up early catchin' a bus  
To wakin' up late sittin' in something more plush  
Now no longer am I in a class full of kids  
I got a one on one, thought I was a day at the crib  
Everyday was different I didn't quit (didn't quit)  
I got four twenty-S and didn't have a permit  
Now I was (Rich as I was rich)  
I had whatever would please me  
A Benz, half a million dollar house easy (And who loud)  
I got the top of the world, brauds makin' house calls  
Doin' things to me you would'nt believe, y'all  
Cuz I'm this, I'm that, I'm steady shaking the spot  
In the position where I can't be stopped (I'm)

Young (Young), Rich (Rich), Dangerous  
(I hear voices sayin')

The world is yours, nigga, get it now  
Get in the game, do yo' thing  
and don't stop until it's locked down

Young (Young), Rich (Rich), Dangerous  
(I hear voices sayin')

The world is yours, nigga, get it now  
Get in the game, do yo' thing  
and don't stop until it's locked down

[Daddy Mac]

(Well I'm) Sittin' on top of the world  
Goin' from coast to coast  
Pushed out pre-votes doin' more than most...  
Niggas do in their own lifetime  
See, since I was twelve a little shorty I've been gettin'  
mine

Not halfway, almost there in between  
I'm talkin' 'bout this little nigga gettin' cream  
Fulfillin' dreams, makin' a name for myself  
Steady doin' things, learning the game gettin' wealth  
I went from sittin' in the front to riding in the rear (yeah)  
I got a five-bedroom yacht sittin' in Lake Le Neer  
That's where, me and my crew discuss  
Different ways for us to maintain in this game  
And keep on kickin' up dust  
Sold out shows, magazine covers (lock down)  
Makin' it easier for other little shorties to rock now  
It's like this (uh-huh), that's how it be (say what)  
You can't predict the future without mentioning me  
(Cuz I'm)

Young (Young), Rich (Rich), Dangerous  
(I hear voices sayin')  
The world is yours, nigga, get it now  
Get in the game, do yo' thing  
and don't stop until it's locked down  
Young (Young), Rich (Rich), Dangerous  
(I hear voices sayin')  
The world is yours, nigga, get it now  
Get in the game, do yo' thing  
and don't stop until it's locked down

[Daddy Mac & Mac Daddy]  
Now my first name is Chris...A.K.A....Lenny ...with plenty  
A millionaire before I reach the age of twenty  
I'm surround by a crew of niggas livin' the same  
Young (young) rich and dangerous and wear anything  
Earrings, rings, watches full of ice, hell-a-merchandise  
Helicopter flights to little places called "Paradise"  
Where I'm srrounded by three or four women  
Poolside drinkin' them drinks with the umbrella in 'em  
I got the money and the power livin' it grand  
In this position I could hold the whole world in my  
hands  
Shot callin', big ballin', deal makin' I'm wanted  
For then they think this is nigga here I got it all in  
I'm just gettin' started and I'm deep like this  
Oh, I'm destined to be the next Berry Gordy of this  
business  
Cuz I'm this, I'm that, I'm steady shaking the spot  
In the position where I can't be stopped (I'm)

[Big Rube]  
Young enough to make mistakes  
Exposed to all forms of good and bad,  
The choices of many are the right choices of few,  
Rich enough to make mistakes in a catastrophe

It won't stop wit dollars.  
I'm known by millions,  
Rich with knowledge and that power is dangerous,  
That's where your fear starts,  
You tryin' to come from your poocket instead of your  
heart.  
True youths come from within,  
The only rich man is the one who knows the true value  
of life and death, danger is present when countenance  
is absent.  
Let your mind be the key to unlocking the beauty in  
your heart  
and Godliness in your soul,  
Live in it or rest in it, I'm gone

Young (Young), Rich (Rich), Dangerous  
(I hear voices sayin')  
The world is yours, nigga, get it now  
Get in the game, do yo' thing  
and don't stop until it's locked down

Young (Young), Rich (Rich), Dangerous  
(I hear voices sayin')  
The world is yours, nigga, get it now  
Get in the game, do yo' thing  
and don't stop until it's locked down
