Adam Watts
"I Would Choose You"

If I could turn this wasteland into gold
If could journey happily from young to old
I'd smash a thousand dreams I may have had
I'd give up all material things and I'd be glad
If I could only make one choice

I would choose you
I would choose you
I would choose you
I would choose you

If I could give the heartless a little soul
If I could set a spark beneath lovers gone cold
I'd tear at the seams with all I have
Surrender all my wants, my needs and I'd be glad
If I could only make one choice

I would choose you
I would choose you
I would choose you
I would choose you
I would choose you

I see the world take what I need
Use it all, lose the rest
To be a fool is to put it all
Above the one you know is love
I would not make that mistake

I would choose you
I would choose you
I would choose you
I would choose you

I would choose you
I would choose you
I would choose you
I would choose you

You, you, you
You, you, you, you
