Welcome to hell, dear old friend
So nice to have you back here again
We got the stuff to expand your mind
This shit is gonna blow your mind!

Demon skunk fucks up your brain!

Just one whiff and
Your brain starts melting
Feels so good when you're nauseating

Demon skunk fucks up your brain
Demon skunk drives you insane

Keep on laughing while you wet yourself
Can't stop crying as you shit your pants

Demon skunk fucks up your brain
Demon skunk drives you insane

Sweat like a pig, drool and bleed
Body fluids are running free!
Get ready for another round
With the best friend you've ever found
