"Fashion Change"

Visit "[Fashion Change](#)" on MotoLyrics.com

Spending money you have saved
Working all your life
Give it to the people
Who control boring life
Living without living
Fashion you must change
To be in with the in-crowd
Who live their life the same
Fashion you must change
To keep up with the trend
The money you are saving
Is coming to an end
People, they will follow
The changing of the trend
The fashion they have chosen
Will create a financial friend
Six months, they have passed
Another fashion comes
Work some boring overtime
To help the financial friend
