I'm tired of the chatter and bullshit you talk
Signing contracts in a very big way
Give me a knife, I'll show you where I'll stick it
In your throat, make no joke
You're a money-making bastard and another has been
Get off your ego trip and fuck-off the scene [x3]
I hate your guts
[x2]
Put your head on a pole and throw a party
[x2]
Thought we were nothing but jokes to you
You just took the money and ran
Money-making bastard and you live in an apartment
We're gonna screw you any way we can
Just fed-up with your bullshit and your fucking regime
Get off your ego trip and fuck off the scene [x3]
Stanly knife wanker all over your body!
