Politicians one after one  
Creating havoc and having fun  
Pulling our lives to bits and pieces  
Sucking and crawling like common leeches  
Vote for me, I'm SDP  
No vote labour, no vote Tory  
You don't know which one to choose  
It doesn't matter, you'll always lose  
You're just a load of pointless bastards; You haven't  
got a brain  
You're just a load of pointless bastards; You're driving  
me insane  
What makes people vote 'em in  
I can't see the reason  
There's no justice in the lot of 'em  
They're all just legalized treason  
Police harassment on our streets  
Nuclear war at our feet  
Unemployment up again  
It's just for their financial gain
