"The End Is Nigh"

Don't you look outside your window

It's cold outside

It's cold outside

People stare and you don't know

It's cold outside

It's cold outside

You watch people come as they go

It's cold outside

It's cold outside

Tally on and nowhere to go

It's cold outside

It's cold outside

The end is nigh or so they reckon

It's cold outside

It's cold outside

What's that flash on the horizon?

I don't know

I don't know
