I've seen the angel with sad eyes  
Holding the flames of pure damnation  
Bearer of light might evil one  
Banished from heavens to rise again  
Surrounded by thousands of serpents and beasts  
Cursed child of damned god's spawn  
Angel of abyss devourer of souls  
Evil effigy shine the ancient rebirth  
Supreme chants of necromatic prophecies  
Throughout spheres of fire and light

Conjuration to rejoice on demon's wrath  
Embraced onto infernal revelations  
Deep in the darkest abyss  
I evoke the almighty curse  
From the light - bringer god of rebellion  
I see the sun dies as I hear the children cries  
Decipher of the seven seal Lucifer  
Merciless massacre in thy name

Emperor of evil spheres purify with unholy wrath  
Lord of the antichrist legacy summoning the light for  
pain  
Desolation all thru the centuries enthroned as god  
As the curse remains

The curse has been fulfilled  
Before the holy alliance of perpetual fallen  
Destiny fated for chaos and destruction  
Usurper prince of devouring death  
Atrocious Sabbath desecration of sacred blood  
Shadows and darkness descends  
As the shine of the most infernal curses  
Ascends raising the dead again
