"The Great Execution"

Visit "[The Great Execution](#)" on MotoLyrics.com

Envenomed is the planet we dwell
Impregnated as violated with the breeding of waste
Cureless massive infestation
Propagating the failures of hallowed broken beliefs
Like an open rotten scar, that hurts and never ceases
To bleed

Deceased is the so called savior
The pest of Christ, everlasting universal lies
Harvesting broken prayers
In the fields of decay, deception and sorrow
Promised land - paradise of hypocrisy
Perversion and shame in the void of misery

Poisoning spree, rolling free
Expanded degradation, through centuries of
perversion
Poisoning degradation, the pest of intrusion

Broken prophecies through centuries of regression

The fundamental faith of mankind, praise the lord of
Failure and decline
The fundamental faith of conformity, is to sell all the
Children to slavery

Envenomed is the heart of men
Contaminated as corrupted with the will to greed
Embracing mass flagellation
Propagating the sickness of terminal diseases
Like an open rotten scar, spilling black blood
Eternally

The fundamental fate of mankind, fall into decay till
Everyone goes blind
The fundamental fate of humanity, everlasting cancer
of
Slavery
