Whore of the unlight, drift into the blackest night  
Seduce the sons of god  
Whore of the unlight, mother of doomed spirits  
Give birth to aberrations  
Mundane, vile huntress, slaughter infants cursed  
Castrate religious preys  
Angel of transgression, evoked through sinful dreams  
Jackals and serpents follow

Whore of the unlight, become the fall of shadows  
Of nocturnal, infamous nature  
Whore of the unlight, descend into venereal dreams  
The sinless become sinful  
Prostitute of Babylon, expelled from paradise  
Drink the blood of prophets

Mundane, agonizing breed of ethereal, sickened scum  
Praise the merciless mother of sodomized aberrations  
Vile procreation of soulless, abysmal scum  
Praise the mother raised from dust and mud  
The one who kills all bastard sons  
Praise the mother-killer of bastard sons

[Repeat 1st Verse]
