I haven't slept very much  
Havin' a hell of a time  
Took my mind set it on one thing

Same old, same never  
So glad we're together  
Go on, choose the better

Sunshine, under the blue sky  
Open the radio, I'm on the radio

Made it clear to begin with  
Never to compromise  
It's only fare with you there...

Someone wrote a letter  
Supposed to be this whatever  
So glad I don't get it

Sunshine, under the blue sky  
Open the radio, I'm on the radio
