Friends will come and go but you're still be there  
through the good and the bad when nobody else cares.  
You're my solid ground when the world around me fall,  
the hand that I grab to help me stand tall.  
You've been here through it all.

Chorus:

You're the only one, only one who gets me, gets me.  
You're the only one when I'm out of faith you see.  
You're the only one, only one who gets me, gets me  
through... that's why I Love You  
My sister

We could fight today and be bestfriends tomorrow  
If I broke my heart, yours I could barrow  
When I lose my way you're the first one I see  
Shinning your light on the best parts of me  
You've been right here with me

(Repeat chorus)
