Is anyone else
Alone all the time
Does anyone care if I just die
I'm sick of myself
And wondering why
There's no self destruction overwrite

Tell me that it's all ok
Tell me that the problems are all in my head
Give me a sign
It's all in my mind
Tell me that it's all ok

We live everything
With some kind of pain
Someday it will all work out in the end
We'll never remain in a world that we hate
Someday it will all work out in the end

You're standing in line
You're wasting away
You're searching for someone to explain
You're buried alive
You're two steps behind
You're living a lie
You're killing yourself when your living a lie

Tell yourself it's all ok
Tell yourself the problems will just go away
Unable to feel
Wanted to heal
Tell yourself it's all ok

We live everything
With some kind of pain
Someday it will all work out in the end
We'll never remain in a world that we hate
Someday it will all work out in the end
It will all work out in the end

Does anyone know
A way to get through this

I'm losing myself in myself
Does anyone know
It's only a fool who plays it cool or some say
Yeah Yeah
Yeah Yeah

Tell me that it's all ok
Tell me that the problems will just go away
Give me a sign
It's all in my mind
Tell me that it's all ok

We live everyday
With some kind of pain
But still I can say
Someday it will all work out in the end
We'll never remain
In a world that we hate
Someday it will all work out in the end
We live everyday from the choices we make
Someday it will all work out in the end
It will all work out in the end
It will all work out in the end
