The rumble of the rail line on her way
And the summer lights fallin' down
Let's go run away
You will always hear the call
You will never live to fall
You'll never live the way your living

The mumble of the distance running by
And the way you look all around
No-one's gunna die
You and I we never loved
You and I we cried
We never liked to think we'd give in

It's OK
It's OK Don't fear, I'm here with you
It's OK

The rumble of the rail line on her way
And the summer lights fallin' down
Let's go run away
You will always hear the call
You will never live to fall
You'll never live the way your living

It's OK
It's OK Don't fear, I'm here with you
It's OK

You will always hear the call
You will never live to fall
You'll never live the way your living

It's OK
It's OK Don't fear, I'm here with you
It's OK
It's OK
It's OK Don't fear, I'm here with you
It's OK
