

Kristiania "Changes"

Visit "[Changes](#)" on MotoLyrics.com

I can't stop thinking about
What you said
It's spinning around in my head
Your words
Turned me inside out
I've been longing to hear them
Now I can breathe again

This changes, changes everything
Night to day, winter into spring

I feel like dancing again
I'm free
Like an eagle
My burdens
Has been lifted away
Oooh, I'm forgiven

This changes, changes everything
Night to day, winter into spring
I can hear the birds sing
This changes, changes everything
Used to mourn
Now it's time to sing
A new song
'Cause everything is new
This changes, changes everything
This changes everything
