Like sudden rain  
You come to my life  
I've been trying to  
Forget you  
Like a hurricane  
You turn everything around  
'Cause I remember how  
Good you are

Like the morning sun  
You come every day  
Sometimes behind a cloud  
In my mind  
Feels like I'm on the run  
The way I fill my head  
With anything to keep my mind  
Off you

I thought I could make it  
Without you  
But so far  
So blue  
I thought I could make it  
Without you  
But so far  
So blue
