French fries glisten in the noon-day sun  
I wouldn't mention this to anyone  
Where the hell do those sheep think they're going?  
As soon as I pay up, I'm getting out of here

Could you leave us alone for just a minute?

Lately my life has been flashing before my eyes  
Lately my life has been passing by  
I know I should be concerned about what this means  
But I just keep watching

Could you leave us alone for just a minute?

Where do you think you are?  
Ginger Park  
Where do you think you are?  
Ginger Park

I don't belong there, I guess I never will I don't belong  
anywhere

Could you leave us alone for just a minute?

Where do you think you are?  
Ginger Park
