V1

We can spend seven hours shopping at the mall
have the greatest time together doing nothing at all
we can bring it home, we can fry it up
slip into something, get in the mood for love
we love to dance and sing off key
ooo baby it's a girl thing

V2

We can be your lover, honey, we can be your friend
fight for anything we want to the very end
we can work all day then rock our babies to sleep
know our sisters' secrets and never make a peep
take it to the limit and still seem sweet
ooo baby it's a girl thing

CH

Man don't understand, it's a girl thing
if ya got your hands on a wild thing
you better treat her like a lady make her feel like a
queen

show her that you love her if you know what I mean
ooo baby it's a girl thing

V3

We can drive a mustang we can drive a minivan
we can make a living with our own two hands
we can put it on, we can take it off
doctor, teacher, lover, mother right around the clock
it doesn't really matter, honey, tell me what you need
ooo baby it's a girl thing

CH

Man don't understand, it's a girl thing
if ya got your hands on a wild thing
you better treat her like a lady make her feel like a
queen
show her that you love her if you know what I mean
ooo baby it's a girl thing
