Maria -she's too young to understand, but old enough  
to fell the pain

Of living where no love can grow with no hope for  
change

Maria - her world is an angry place but she makes sure  
that scars don't show

And with every hurt her tender heart is growing cold  
(but)

### CHORUS

Who, who's gonna love Maria

Who, who's gonna touch her with the tenderness she  
longs for

Like a desert longs for rain

She's got a hunger deep inside and with every tear she  
cries

She wonders if there's someone out there somewhere

Who's gonna love Maria

(Maria) she looks in the mirror now and the little girl is  
gone

But still the search for someone's love goes on and on  
for Maria

But does anybody care or even notice her at all

Is anyone listening close enough to hear her call (and  
who)

### CHORUS

Who, who's gonna love Maria

Who, who's gonna touch her with the tenderness she  
longs for

Like a desert longs for rain

She's got a hunger deep inside and with every tear she  
cries

She wonders if there's someone out there

### BRIDGE

Maria if you can hear me, please know that you're not  
forgotten

Somebody's trying to get to you

(Chorus 1)
