Come in base Iâ€™ve landed my ship on a planet here in space

This is the one they say is inhabited by the human race

And Iâ€™m going out to look around and see whatâ€™s here

And Iâ€™ll tell you what I find

Confirmation on the inhabitants theyâ€™re running everywhere

And their technology is beyond what Iâ€™ve seen anywhere

But Iâ€™m trying to communicate and they donâ€™t hear me

It seems like for all Iâ€™m finding

I canâ€™t find the most important thing

Where are the signs, where are the signs of life

The love that proves there is a beating heart inside

Where are the signs, where are the signs of life

The compassion and concern that makes this world turn

Where are the signs of life

Now, Iâ€™ve got crayons rolling around in the floorboard of my car

Bicycles all over my driveway, bats and balls all over my yard

And thereâ€™s a plastic man from outer space sitting in

my chair

The signs of life are everywhere

But I've got questions rolling around in the corners of
my mind

If it's true I live in a world where hope has all but died

And if I really have a living love alive in me

How am I letting it be known, how am I letting it be seen

These are the signs, these are the signs of life

The love that proves there is a living faith inside

These are the signs, these are the signs of life

The compassion and concern that makes this world
turn

These are the signs of life

[Solo]

These are the signs, these are the signs of life

The love that proves there is a living faith inside

These are the signs, these are the signs of life

The compassion and concern

That's gonna make this world keep turning

These are the signs of life

A love that's flowing from the heart

Where the grace of God has left its mark

These are the signs of life

The reaching out of a servant's hand

The giving that makes no demands

These are the signs of life

This is loving proof of the faith inside

These are the signs of life
