Steven Curtis Chapman

Galaiaans 6:7-8

The T.V. said just make sure you're old enough
And let your feelings tell you when it's right
What went wrong? She thought it was really love
Now she wonders why she just can't sleep at night
Was it worth the price she has to pay

Chorus

It's either truth or consequences, there's no other way
Push truth aside, the other takes it place
Well, you can close your eyes
But that won't make it go away
The truth or consequences must be faced
The headlines say our world's in a lot of pain
Huurt from all the selfishness and greed
What went wrong? Like sheep all have gone astray
We'll reap what we sow, don't be deceived
His truth's been given and it's there before us
Written on the page and in our hearts

Chorus

As sure as God made the sun to shine
He made the rules we must all live by
He loved us too much to leave us alone
To our own devices
Repeat Chorus
