Are you feeling me?  
Tell me, are you feeling me?  
Are you feeling me?  
Tell me

Let me be the queen in your life  
I wanna be that thing  
Am I all that really matters?  
Let me be the queen in your life  
I wanna be that thing  
Am I all that really matters?

Am I all that really matters? Yeah  
Am I all that really matters? Yeah  
Am I all that really matters? Yeah  
Am I all that really matters? Yeah, yeah, oh

And I can see you there the radio filling up the air  
When every breath was a brand new song  
And I still feel you near in every brand new tear  
'Cause what we felt was, oh, so strong  
Sing along, sing along and I say

That all I need is just four minutes  
If you're not feeling this then quit it  
Somebody hit it now

Let me be the queen in your life  
I wanna be that thing  
Am I all that really matters?  
Let me be the queen in your life  
I wanna be that thing  
Am I all that really matters?

Am I all that really matters? Yeah  
Am I all that really matters? Yeah, yeah, oh

'Cause I still feel your vibe when the energy starts to  
come alive  
You see I felt you all along  
And have you heard my baby, I hung on to every single  
word

Your voice still spins around and around  
With a sound that I found, say

All I need is just four minutes  
Give it to me, give it now  
If you're not feeling this then quit it  
Somebody hit it now

Let me be the queen in your life  
I wanna be that thing  
Am I all that really matters?  
Let me be the queen in your life  
I wanna be that thing  
Am I all that really matters?

Am I all that really matters? Yeah  
Am I all that really matters? Yeah  
Am I all that really matters? Yeah  
Am I all that really matters? Yeah, yeah, oh

Let me be the queen  
Let me be the queen  
Let me be the queen

Are you feeling it?  
Tell me, are you feeling it?  
Let me be the queen  
Are you feeling it?  
Tell me

Let me be the queen in your life  
I wanna be that thing  
Am I all that really matters?  
Let me be the queen in your life  
I wanna be that thing  
Am I all that really matters?

Am I all that really matters? Yeah  
Am I all that really matters? Yeah  
Am I all that really matters? Yeah  
Am I all that really matters? Yeah, yeah, oh
