Had a crazy dream
I couldn't sleep last night
It was so real it left me in a fright
The bouncer at Club Heaven said
House is packed tonight, we're gonna paint it red
Come on girl, they're giving you a hand
You're gonna be the singer with the big big band
The big big band
The big big band
The big big band

I said ooh wee
I don't know the show
Ooh wee, do I have to go
Really - I didn't have it planned
You're gonan be the singer with the big big band
With the big big band
With the big big band
With the big big band

Club heaven is in the underground
That is where the hippest coolest cats are found
Dressed in uniforms from every kind of war
Tattoos, gowns that hit the floor
Gabriel he finds me on the crowded dancefloor
Come on people give her a hand
She's the new singer with the big big band
The big big band
Singin' with the big big band

Gabriel he finds me on the crowded dancefloor
He said, take the stage
I'm the singer with the big, big band
The big big band (ad libs)
The big big band (ad libs)

And I'll be singing (repeat and fade)
