So what do you do when there's so melodies inside
your mind
That the sound is just too hard to find
Only sleep can set you free
Tell me, how did this come to be
That everybody's so loud
You just get lost in the crowd

You can find me there outside of the crowd
Somewhere in the mix, 'cause I live out loud
Livin it
Living out loud
That would be me
I'm living out loud (repeat)

Just keeping it down low
You and I both know we're living out of the box
Been quiet for so long
I'm hungry for a real sound
I'm headin' to where the building rocks

And I say don't try to keep us down
We're kickin' up the sound
And we won't stop til you drop
You can find me there outside of the crowd
Someone in the mix, cause I live out loud
Livin it
Living out loud
That would be me
I'm living out loud

You can find me there outside of the crowd
Someone in the mix, cause I live out loud
Living out loud

I'm kickin' down all doors
I'm setting old scores
It's time for living what you know
Been running on empty
I'm counting on you and me
Well let the music set us free

Don't tell us to quiet down
We're screaming now to be found
We're what the world is talking about

You know I'm not giving up
I've lived enough to be tough
You've got to fight for what you love
You've got to be
Come on and find me

You can find me there
Outside of the crowd
Someone in the mix
'Cause I live out loud
You can find me there
I'll be in the crowd
