Loso

In case you aint loso baby

Talking about that future love you know

not that right now but that later on

you know what i mean

because thats gonna happen

a couple of years

and I'm gonna know your name

it's like I waited for you forever

and I know this might sound insane

but it won't be long

til' we're gonna take this up

what I'm talking about our future love

it's so far away

and baby you're right next door

got me picturing your face again

something worth waiting for

i put all others behind me

they don't live up

i know what I want

what I need to the T

baby if they ask me

i would say I don't even know your name

and when they ask me

does it change?

no it don't change a thing

'cause it's something about the way you love me

and it's something about the way you know me

and I can't explain enough

there's just something about our future love, future

love, future love

something about a future love, future love, future love

walking hand in hand

going on the second date

i can picture how we're touching

and the kiss I can almost taste  
i imagine the all the ways  
we meet for the very first time  
i can see the place, feel the love, at first sight

baby if they ask me  
i would say I don't even know your name  
and when they ask me  
does it change?  
no it don't change a thing  
'cause it's something about the way you love me  
and it's something about the way you know me  
and I can't explain enough

there's just something about our future love, future  
love, future love  
something about a future love, future love, future love.

yeah yeah yeah  
You dont even know me but you will later  
Me and you might be the next will and jada  
i can put a kiss on ya and make you feel jader  
throw it in the back worry about the bill later  
i aint gotta rush  
i aint gotta crush  
it goes down automatic  
i aint gotta flush, hush  
we'll talk in the future  
my shoes come next yeah i walk in the future  
im so far ahead, you probably dont get it  
im full foot ahead i probably wont hit it  
yeah, i'll save it for another time  
i dont think we know each other  
im that future love

i know, the minute you pull up next to me  
we standing there like destiny  
when it feels like you're fighting just to breathe  
that's when you know

the minute I pull up next to you  
suddenly you don't know what to do,  
everything inside you says that I'm the one

baby if they ask me  
i would say I don't even know your name (i dont even  
know you name)  
and when they ask me  
does it change?  
no it don't change a thing  
'cause it's something about the way you love me

and it's something about the way you know me  
and I can't explain enough

baby if they ask me  
i would say I don't even know your name  
and when they ask me  
does it change?  
no it don't change a thing  
'cause it's something about the way you love me  
there just something about the way you know me  
that I can't explain enough

there's just something about our future love, future  
love, future love  
something about a future love, future love, future love

whoa  
future love, future love  
future love, future love
