"Face Of The Wind"

Visit "[Face Of The Wind](#)" on MotoLyrics.com

while you are walkin, do you feel sometimes your
followed? and when you're talkin, do you feel someone
is listening? are there spirits in the face of the wind?
are they here to help us heal and to mend? are there
entities on this planet we live, that stand beside us.
they're here to guide us, they see right through us.
while we're lookin to the stars are they right here
found? right here found. while we're looking to the
stars are they right here renowned? right here
renowned. do you think it is crazy, to think life is
elusive? for in our science, we have no understanding?
are there spirits in the face of the wind? are they here
to help us heal and to mend? are there entities on this
planet we live that stand beside us? they're here to
guide us. they see right through us. while we're lookin
to the stars are they right here found? right here found.
while we're lookin to the stars are they right here
renowned? right here renowned. are there spirits on
the face of the wind? are they here to help us heal and
to mend? are there entities on this planet we live that
stand beside us? they're here to guide us. they see
right through us. while we're lookin to the stars are they
right here found ? right here found. while we're lookin
to the stars are they right here renowned? right here
renowned. right here found, right here renowned, right
here found.
