(Kali baby...)

[CHORUS]

I'm fucked up, you fucked up, we fucked up  
Can we do sum'n?  
Hell yeah (Hell yeah)  
Hell yeah (Hell yeah)  
Hell yeah (Hell yeah)  
n I'm about to get up in it.  
I'm fucked up, you fucked up, we fucked up  
Can we get it freaky?  
Hell yeah (Hell yeah)  
Hell yeah (Hell yeah)  
Hell yeah (Hell yeah)  
N we gon' leave her in a minute

We in the V.I.P. spot  
lookin for them nono girls  
who wanna give it to us even though they barely knew  
us  
in Kazoo there they would do the crew, there's two for  
me and one for you  
n dey make me hot  
n I'm lookin for a girl to do some  
extra able-bodied, baby till the night stop  
Are you gon' be that one?  
that very special one?  
To come to do me right  
like we on our wedding night  
If so, okay, let's go;  
my room, clothes hit the flo.  
and where they go we'll never know  
blame it on the Cuervo.

It's kinda hard to resist a sista  
with tha lips of an angel an dem big ole hips on her  
Like what I seen and then I made my approach  
I said "Ya got a good team, baby ya need a new  
coach."  
n I'm a 5-10 [[5'10" ?]] minute mac  
and when we finish that  
151 rrum wonder if I know how to act

It's movin thru me and you too  
and ain't no tellin whatchu gon do  
when the sex on tha beach is affectin how ya speakin  
(Yeah!)  
Ain't even the weekend; you creepin on a Thursday  
Boughtchu a drink cause you lookin thirstay!  
Gobble it gobble it!

[CHORUS]

We offa one too many!  
Baby let me call us a cab!  
We way too tipsy!  
Ya lookin like ya got sum'n ya wantin me ta have  
so let's make the night go right  
go back to my castle, relax a baby  
lemme relax you, n when I make tha lights go low  
you go low, woman  
Kali baby, known for makin women want him! (Really!)  
(It ain't ova! Let me turn you ova!  
I told you I'mma beast now lemme show you girl!)  
Fasten your seatbelt it's bout to get turbulent,  
after I hurdle your girdle we'll experiment,  
an' I know I'm to' up

1 and 2 and 3, foreplay  
You do what-e-ver I say  
It's only right of you to spend the night  
now come on bay bay  
First we'll let the song play,  
then do what the song say  
We're married any way  
it's all a part of our role play
