The heat is getting stronger, come and feel the power
Shield your eyes from the flame
Straight into the fire, let it get you higher
It's a passion you can't tame

Sure you wanna rock, sure you wanna play
We've got something for you
Hot stuff, shakin' it up
The only message is we only do it for the fun

Burning up the night
Everything's gonna be all right
Burning up the night
Don't give up the fight
Burn it up, yeah

The cool and reclusive, wild and exclusive
Come alive at the show
All you crazy dancers, one night romancers
Just let it go

All who wanna rock, all who wanna shout
We've got something for you
Big bang, join the gang
The only message is we really wanna rock you out

Burning up the night
Everything's gonna be all right
Burning up the night
Don't give up the fight
Burn it up, yeah

The cool and reclusive, wild and exclusive
Come alive at the show
All you crazy dancers, one night romancers
Just let it go

Only wanna rock, only wanna play
For an hour or two
Big bang, join the gang
The only message is we really wanna rock you out

Burning up the night
Everything's gonna be all right
Burning up the night
Don't give up the fight
Burn it up, yeah

The cool and reclusive, wild and exclusive
Come alive at the show
All you crazy dancers, one night romancers
Just let it go

Burning up the night
Everything's gonna be all right
Burning up the night
Don't give up the fight
Burn it up, yeah

The cool and reclusive, wild and exclusive
Come alive at the show
All you crazy dancers, one night romancers
Just let it go

Burning up the night
Everything's gonna be all right
Burning up the night
Don't give up the fight
Burn it up, yeah

The cool and reclusive, wild and exclusive
Come alive at the show
All you crazy dancers, one night romancers
Just let it go

Burning up the night
Everything's gonna be all right
Burning up the night
Don't give up the fight
Burn it up, yeah

The cool and reclusive, wild and exclusive
Come alive at the show
All you crazy dancers, one night romancers
Just let it go
