Yellow moon light, silver shadow
Cover me over with your light
And ease my sorrow
She gave me everything I needed
Shelter in the pouring rain
Now I'd do anything to have her back again

(All through the night)
I keep fighting the heartache
Fighting for you
(All through the night)
I keep dreaming about you
Screaming without you

I said now
I can't wait any longer now
While the passion's stronger now
And I wanna please you now
Need you here to free me now

Taste of true love, made of fool's love
Blinded by magic from the start
I gave you my heart
I don't wanna live for the future
I never gonna live in the past
I need your love right now
That's what I ask

(All trough the night)
I keep tossing and turning
Dream about you
(All through the night)
I keep dreaming about you
Screaming without you

I said now
I can't wait any longer now
While the passion's stronger now
And I wanna please you now
Need you here to free me now

(All through the night)
I keep tossing and turning
Dream about you
(All through the night)
I keep dreaming about you
Screaming without you

I said now
I can't wait any longer now
While the passion's stronger now
And I wanna please you now
Need you here to free me now
I can't wait any longer now
While the passion's stronger now
And I wanna please you now
Don't you know I need you now
