Madness, cancer of the rain
Like worms on a carrion
Like ravens on a corpse
Like wolves after their prey
Like vermin on the guts
Like vampires on the blood
Like cannibals on the flesh
Enslaved by the madness
Lost control on a human machine
Eaten by schizophrenia and paranoia
Painful cries and screams of terror
The whirlpool of your brain

Pain, cries, unleash my head
Crows shout, sound of their wings
Mad, weak, infernal torment
I must die !!!
Death, fallen in a black hole
Time, space, forever ended
No end !!!
Snakes creep inside, crows fly above, schizophrenia
Suffocation, possession, paranoia
Madness, cancer of the...brain...
