Feel the sword violently rip your head  
Each neck bone cracking under wrath blade  
A deep neigh in the burdensome mist  
The preludium of the blade symphony

No eyes... but I see  
No ears... but I hear  
No blood... but I live  
No mind... but I feel

Guided be my fate by the eaque sword  
Again I shall kill, I behead with true rage  
Headless bodies walk, then on their knees... they fall  
I rule this land of fear with eaque sword  
I ride, night's veil hiding tears of a diving sun  
I obey the owner of my head  
Till the day it becomes mine as before

Embodiment of a blood justice, reign of terror  
Sleepy hollow has become a hatred haven  
Where dwellers are hidden as vulgar rats  
Awaken in my death handled by mistress of fury  
A judge of hell... the devil's advocate  
Guided be my hate by the eaque sword

Feel the sword violently rip your head  
Each neck bone cracking under the wrath blade  
A deep neigh and a sarcastic laughter  
The postludium of the blade symphony  
Again I shall kill, I behead with true rage  
Headless bodies walk, the on their knees... they fall  
I rule this land of fear with eaque sword  
I ride, night's veil hiding tears of a diving sun  
I obey the owner of my head  
Till the day it becomes mine as before

Bell of trial echoes  
The call of retribution  
She whispers to my skull  
And I behead the chosen one with eaque sword

Embodiment of a blood justice, reign of terror

Sleepy hollow has become a hatred haven

... with eaque sword
