Why do we carry, why do we carry these heavy burdens; they're lost you see. Oh, oh, don't carry, don't carry; place your burdens up here, up here, up here.

Chorus:

To find your way keep your love light burnin. Before you end each day mention where you're hurtin. Be sure and when you say, thank you for this day, let your light shine down on me.

Verse:

Like the flow of water, when the channel is open, clear out your heart and feel love flowin. Oh, oh, don't carry, don't carry; place your burdens up here, up here, up here.

Chorus:

To find your way keep your love light burnin. Before you end each day mention where you're hurtin. Be sure and when you say, thank you for this day, let your light shine down on me.

Verse:

When your soul is weary, you don't see things clearly, because your light to heaven is blurry. Oh, oh, don't carry, don't carry; place your burdens up here, up here, up here.

Chorus:

To find your way keep your love light burnin. Before you end each day, mention where you're hurtin. Be sure and when you say, thank you for this day, let your light shine down on me. Oh let your light shine down on me. Oh let your light shine down on me.
