Justin is the pimp on the block
he smacks and cracks around hoes alot
every day around 3 o'clock
you can hear all the nasty talk
he loves the disease infested little whores
whose mouths and things are covered with herpes
sores
he brags to the public about how he scores
with 12 year old girls behind convinience stores
his brain is gone from smoking crack
he lost his hair, it won't grow back
he carries around a burlap sack
and searches around for a needle to slap

hes a drug addicted little boy
who infests your town with disease
don't play around with his toy
if you don't want it to burn when you pee
