Yeah, uh huh, underground, never stop y'all  
Underground, K.P. y'all come on

Ain't no stoppin' what we've done  
Don't give up this fight is won  
There's no way they can hold us down  
'Cause with power and strength we gonna take it now

Take that stand, realize the truth  
Knowledge intellect bringin' minds anew  
There's no way they can hold us down  
'Cause with power and strength we gonna take it now

**B R O N X**

See these cars, see these checks, intellect  
See these thugs, ain't no sweat, intellect  
A thousand miles, how do you do it? One step

Now check out this flow, they wanna be down, but they  
can't  
Original criminal minded flow, they just ain't  
Ready for the real, ready to peel off the paint  
Your style is fake, the teacher returns to debate

You the best? That's bull, you questionable  
Highly flexible, wasn't you sexual?  
Now you hardcore? You need to see God more  
I sit on the faculty you, you sophomore

Ain't no stoppin' what we've done  
Don't give up this fight is won  
There's no way they can hold us down  
'Cause with power and strength we gonna take it now

Take that stand, realize the truth  
Knowledge intellect bringin' minds anew  
There's no way they can hold us down  
'Cause with power and strength we gonna take it now

Time to get it, now you did it, tryin' to spit it  
You don't fit it, ask the critics, already did it, skipped  
the gimmicks

I don't mimic, metaphysics, you'll admit it, better to live it  
Better to give it, so I spit it every minute so you get it

My lyric is wicked an' full of culture y'all  
Huh? Battle, nah, get back in your car  
Either you never heard of me or you really wanna get with me  
But as your teacher let me test you for a learning disability

You feeling me? 'Cause you can't, get it through your head  
This is, suicide, you're better off dead  
Let me not amp you up 'cause this style you can't do what  
My stomach can take it and your stomach it'll cramp you up

This is, breath control, breath control stylee  
I get up all in that ass that [Incomprehensible] toxic heinie  
Try me, back in the days you woulda had sorrow  
Try the teacher today, and you won't see tomorrow 'cause

Ain't no stoppin' what we've done  
Don't give up this fight is won  
There's no way they can hold us down  
'Cause with power and strength we gonna take it now

Take that stand, realize the truth  
Knowledge intellect bringin' minds anew  
There's no way they can hold us down  
'Cause with power and strength we gonna take it now

Like a piss on the streets I exist  
Not the meat but the fish  
Complete the feat when I'm speakin' the heat into this  
Witness Kris rippin' this

Don't trip on this, skip ahead if you're ready  
My show medley is deadly  
I'm about a hundred million mic years away  
These players I don't hate, but I'm not here to play

I hit it all day, all night, all afternoon  
Rock all mics from the days of sassoon  
Where the hell was you? On the corner with rats  
When we was at the LQ, lockin' it down and that was that

Divine speaker, mind keeper, time teacher, time leader  
I'll be sittin' in the club by the speaker  
Waitin' for you rappers to choke up then I eat ya  
Like some prehistoric winged creature, ah  
On your neck, like the American eagle facin' East and  
West  
I be the best, Blastmaster KRS 'cause

Ain't no stoppin' what we've done  
Don't give up this fight is won  
There's no way they can hold us down  
'Cause with power and strength we gonna take it now

Take that stand, realize the truth  
Knowledge intellect bringin' minds anew  
There's no way they can hold us down  
'Cause with power and strength we gonna take it now

Get them up, get them up  
Get them up, get them up  
Get them up, get them up  
Get them up, get them up

Ain't no stoppin' what we've done  
Don't give up this fight is won  
There's no way they can hold us down  
'Cause with power and strength we gonna take it now

Take that stand, realize the truth  
Knowledge intellect bringin' minds anew  
There's no way they can hold us down  
'Cause with power and strength we gonna take it now

Attention all true hip-hoppers  
Let us come together, for the unity of hip-hop culture  
Every third week in May, is hip-hop appreciation week,  
celebrate with us  
Then, join us in November, for hip-hop history month  
Big up, to the Zulu Nation, hey

Teacher, yes who's that?  
It's the authorities, they're at the door  
Chill the authority is here
