C'mon, gather 'round now, gather 'round now, look now  
How many times did you pre-meditate  
What you thought was your fate, 'cause you couldn't  
just wait  
You had to have it the way that you thought in your  
mind

But in the end, everything came in time  
But before the time, you was losin' your mind  
You was racin' and rushin' and fallin' behind  
But let me tell you bout God and the way that She works

I mean the way that He works, I mean the way that We  
work  
You gotta trust in your Lord, everything is in accord  
Don't rush or fuss, you gonna get yours  
Close your eyes, your heart, your ears, your mind

To the ways and thoughts of mankind  
And seek ye first the Kingdom of God  
And things won't seem so hard  
You gotta trust your Lord, uhh, uhh, tell 'em 'bout

Trust and obey, trust when afraid  
Trust when you paid, trust when betrayed  
Trust when you fear, trust when you unclear  
Trust when you here, trust when you near

Trust when you down, trust when you found  
Trust when you clown, trust  
C'mon, let's do it again, uh, uh  
Let's raise it up, c'mon, look

After you live and you learn then you see  
You will learn how to trust in your G O D  
You will be so free, you won't see no me  
You will only see the will of the almighty

You sick of what? Well ya will, give it up  
Stop thinkin' and begin' to, live it up  
Every time you think it's one way it's not  
Every time you wanna start you really stop

Trust in the inner the outer is for the sinners  
In fact this whole rap is for beginners  
Those that have talked and walked upon the path  
Know that they get what they want before they act

So why rush, if your respect is due  
Whatever you don't have is protectin' you  
Here's what you do have that be bringin' the drama  
Ask and it shall be given, with a comma

Trust and obey, trust when afraid  
Trust when you paid, trust when betrayed  
Trust when you fear, trust when you unclear  
Trust when you here, trust when you near

Trust when you down, trust when you found  
Trust when you clown, trust  
C'mon, let's do it again, uh, uh  
Let's raise it up, c'mon, look

You trust in her, trust in him, trust in them, and then  
Trust in men, trust in sin, trust in friends  
You trust in her, trust in him, trust in them, and then  
Trust in men, trust in sin, trust in friends

Uh uh, soundin' good, soundin' good, look, look  
So when will you be it, when will you see it  
That thoughts and things they manifest when you  
decree it  
But God be lookin' out for you

Puttin' a stop to what you're about to do  
In your life, and in your circumstances  
Every time you speak you be takin' chances  
Talkin' 'bout things that you really don't have to have

So when you get 'em, your life turns sad  
Your life turns bad, now why would your God be  
allowin' that?  
Trust in God, that's where the crown is at  
It's not in what you get, it's what happens after that

So if you think your life is shrinkin'  
It may be 'cause you keep thinkin'  
Not that intellect is wrong  
It's just the beginning, it might be time to move on

Trust and obey, trust when afraid  
Trust when you paid, trust when betrayed  
Trust when you fear, trust when you unclear

Trust when you here, trust when you near

Trust when you down, trust when you found

Trust when you clown, trust

C'mon, let's do it again, uh, uh

Let's raise it up, c'mon, look
