[KRS-One: repeat 2X]

We don't care anymore (care anymore)

We don't share anymore (share anymore)

[KRS-One]

I'll keep on bringin and singin until your ears is ringin  
and stingin flingin and gleamin true MC'n with meanin  
It's seemin we fiendin for all the cream and all the  
screamin

The demon got us believin in schemin, rhymin for no  
reason

Every weekend we weakened, discipline is what we  
needin

But we too busy freakin to understand divine speakin

Is anyone out there tryin to make it better?

Or is all of hip-hop about the cheddar? Whatever!

[Chorus 2X: KRS-One]

You don't care anymore (care anymore)

We don't share anymore (share anymore)

[KRS-One]

We don't share and care no more, we think this one's  
about lust

In every debate we create more hate and mistrust in us

Judge not least ye may be judged, show understandin

You don't know anyone's plan in life, it's so demandin

This one rippin off that one, that one rippin off this one

Listen, givin is livin and livin is givin, you listenin?

Our culture we pissin in, pissin on

Rappin for platinum plaques but when live, can't get it  
on

[Chorus]

[unknown rapper]

What a response, from the Bronx, to wreck shit, when  
it's hectic

Players wanna be stars, instead of being respected

That's somethin that I won't do of course, I break 'em  
off

Straight from the source, they think they boss, when  
they lost  
Tryin to force it, when it don't fit, I'll bust you down and  
I won't quit  
Mics and money you won't get, when dogs don't do  
that dope shit  
Now turn it around and peep it, make sure to keep it a  
secret  
I come down with that deep shit, straight out the sky I  
speak it

[Chorus]

[singer]  
Somehowwwwww, we got lost  
And now our sharing, is gone  
No one cares, no one shares  
We gotta make it right, so we all can unite
