

Kru "U Make My Day"

Visit "[U Make My Day](#)" on MotoLyrics.com

You bring the sunshine to my days
You're the starlight in my nights
You're my heaven on earth, Boy
You make me feel so right
You're my knight in shining amour
You know it's the truth
Don't ever let me go
You're my dreams come true
Baby, I love you
I'm so happy that you're mine

A love like ours was meant to be
Cause I can clearly see
Through the clouds above
There's a place for you and me
We can break the stormy weather
You know it's the truth
Then maybe we will know
Baby, where we stand
Let's do what we can
Cause this love's hard to find

Pa, para, pa, pap, para

(Rapped) This is a jazz about a boy and a girl
And they're so madly in love
He said "Girl, you rock my world
When I'm feeling down and out
Ain't nothing's going my way
You just turn around and make me smile
You make my day"

A love like ours was meant to be
Cause I can clearly see
Through the clouds above
There's a place for you and me
We can break the stormy weather
You know it's the truth
And maybe we will know
Baby, where we stand

Let's do what we can

Cause this love's hard to find

You and me belong together
Like the stars up in the sky that shines forever
These feelings I can't hide
However hard I try
I love you more than words can say
Oh, Boy! You make my day

Para, pa, pap, para

You and me belong together
Like the stars up in the sky that shines forever
These feelings I can't hide
However hard I try
I love you more than words can say

Pa, para, pa, pap, para

(Rapped) You and me
We belong together
Like the stars up in the sky that shines above forever
These feelings I can't hide
No matter how I try
I love you more than words can say
You make my day

You make my day
You make my day
You make my day

You make my day
You make my day

Pa, para, pa, pap, para
