Go!

Thousands of people lying dead on the streets
They got no money, got nothing to eat
Life's a bitch and then you die
They'll shove you in the ground but no one cries

Turn on the TV it's all the same
Rape, murder and hypocrisy
Crooked cops walking free on the streets
They're looking in the alleys for niggers to beat

And I think the best thing you ever did for me
Was ruin my life

[Chorus:]
It's a shitty life, you
Make it what you want
Forget about tomorrow
Never give a fuck

Get up in the morning just to go back to sleep
Don't want to work and you can't fucking eat
If you could find the strength to get yourself off the
ground
You'd pick up a bottle and wash yourself back down

And I think the best thing you ever did for me
Was ruin my life

[Chorus]
