1st verse

Christmas will never be the same,
if you have'nt come home yet,
It would be a miracle to see you once again

Chorus:

I have enouh of your promising that you would come
back on christmas day.
I dont believe you anymore, Iam not a fool cause I know
that you dont love me anymore

2nd verse

A promise is a promise that we would share the special
holiday, just when I thought that it would be real,
who am I to be fooled with you, no no no, I cant believe
you would do this to me, and I want you to believe that
its christmas day, its all about love, its all about
keeping promises to each other

(repeat chorus 2x and fade)
