One day (x3)

[Charice - Verse 1]

They're not gonna keep me down
They're not gonna shut me out
They're gonna do what they do, I'd do me
I'm moving against the crowd
I'm drowning out the doubt
They're gonna do what they do, I'd do
Something original, be unforgettable
They're gonna know my name

[Chorus]

One day, I'll make you a believer
One day, got this all I need is
One day, don't try to tell me I can't
Right now, I'm running the future
Watchout, won't stop I'm a mover
One day, you're gonna know who I am
I will fly
High and free
It's my fate, wait and see
One day

[Charice - Verse 2]

I've been afraid to fall,
To wish for something more
But now that I see that it's mine,
I'll take it
Just go ahead and try,
You're not gonna change my mind
There's no such thing as too late

Yeah!

[Chorus]

One day, make you a believer
One day, got this all I need is

One day, don't try to tell me I can't
Right now, I'm running the future
Watchout, won't stop I'm a mover
One day, you're gonna know who I am
I will fly
High and free
It's my fate
Wait and see

[Bridge]

I'm on a mission, no longer listening
To anyone that says don't try
Sometimes you feel it
Deep in your spirit
It's like a fire that won't die
One day
Wait and see
One day
Oh
Just wait and see it

[Chorus]

One day, make you a believer
One day, got this all I need is
One day, don't try to tell me I can't
Right now, I'm running the future
Watchout, won't stop I'm a mover
One day, you're gonna know who I am
Oh when I'm high and free
It's not fate, wait and see, One day

One day, One day, One day, One day, One day
