i say , i finally found the truth  
when i opened up the book God's written  
you say, i'm just another fool  
who believes a man-made fairytale  
i know, the God i serve is true  
cause He doesn't lay there six feet under

before you get too far away

Chorus:

lay down, lay down, lay down your gods  
open your eyes  
then put your life on the line  
lay down, lay down, lay down your gods  
don't waste your time  
you've got to lay down your gods

tell me, oh when your life is through  
will the gods you serve be there to save you  
i know  
that Jesus is reality  
not some false religious dream

don't let them steal your soul away

Repeat chorus

lay down, lay down, lay down your gods  
follow the one  
the way, the truth and the life  
lay down, lay down, lay down your gods  
don't live a lie  
you've got to lay down your gods
