Let me say
All I need to say
Life is so much more
Than what you think it is...

Would you let me say
All I want to say to you
Maybe you don't wanna hear it
Hear my point of view

Would you take the time
To hear what's on my mind
Something that's so good to know
I wish you'd know it too
O won't you please

Let me say
All I need to say
Life is so much more
than what you think it is...

Would you let me say
All I want to say to you
Nothing I would rather do
Than share it all with you

You see I was blind
But now I see everything
The One who opened up my eyes
Can open your eyes too
O won't you please

Let me say
All I need to say
Life is so much more
than what you think it is
Let me say
All I need to say
Life is very short
So you better be
Thinking it through
O won't you please

Let me say to you
Let me say...

You see I was blind
But now I see everything
And the One who opened up my eyes
Can open your eyes too
O won't you please

Let me say
All I need to say
Life is so much more
than what you think it is...

Let me say
All I need to say
Life is so much more
than what you think it is
Let me say
All I need to say
Life is very short
So you better be
Thinking it through
O won't you please
Let me say to you

Let me say...
