Krypteria
"All Systems Go"

I hear the countdown it's ticking - the victim of my
ambition on a mission to the stars
No way back I find myself on the edge of one gaping
nothing - did I really order this
Face the crowd make us proud it's up to you now, break
a leg we'll be right back
Ten nine eight seven six five four three two and one

All systems go, shield your soul it's fourth and goal
from the 21
In danger I know of losing it all still it can be done

This could be my moment in time it's there for the
taking - the question is can I make it last
Face the crowd make us proud it's up to you now, break
a leg we'll be right back
Ten nine eight seven six five four three two and one

All systems go, shield your soul it's fourth and goal
from the 21
In danger I know of losing it all still it can be done

Ten nine eight seven six five four three two and one
All systems go, shield your soul it's fourth and goal
from the 21
In danger I know of losing it all still it can be done
All systems go face the unknown one last shot from the
21
I enter the zone cause deep down I know yes it can be
done

You might receive what you want and still end up with
nothing
