There is one thing you should know,  
the way you need to go  
It's dangerous indeed, your destiny you'll  
meet

The prize youu will receive is  
the answers to your needs  
You are the one to break the seal

I can't turn back the hands of time  
But hear me out, seek and ye shall find

Try, try and maybe you will find  
find another place in time  
Time to resurrect your mind, just try  
Try, try and maybe you will see,  
see a different reality  
Be the best that you can be, you can be,  
just try and see

There is one more liefе to save,  
a heart still firm, still brave  
It's worth it,  
carry on and save the precious bond  
The prize you will receive  
is the answer to your needs  
You are the one to break the seal

I can't turn back the hands of time  
But hear me out, seek and ye shall find

Try, try and maybe you will find  
find another place in time  
Time to resurrect your mind, just try  
Try, try and maybe you will see,  
see a different reality  
Be the best that you can be, you can be,  
just try and see
