As the lights come crashing down without the slightest  
sound we turn this page for good there's more to this  
book

With the echo of the chimes still ringing in our mind we  
have to move ahead because we are not done yet  
Capture the wind change your skin

Dream yourself far away start spreading your wings  
now let your mind disobey capture the wind  
Dream yourself far away embrace the unknown now  
free yourself from all the chains

When your gazing at the sky with a heart all strapped  
and tied resist your fate unbind set sail free your mind  
Complete the task at hand the end is not the end  
despite all the dismay we'll live to fight another day

Capture the wind spread your skin

Dream yourself far away start spreading your wings  
now let your mind disobey capture the wind  
Dream yourself far away embrace the unknown now  
free yourself from all the chains

Time to move on, dream yourself to a new place your  
chance to travel to a whole different time and place

Dream yourself far away start spreading your wings  
now let your mind disobey capture the wind  
Dream yourself far away embrace the unknown now  
free yourself from all the chains
