Oh how sweet that the thoughts and dreams are free  
My emotions flying high, imagination running wild  
Just the thought of you makes me giggle like a little  
fool  
How I wish that you were near to quickly get me out of  
here

Won't you save me, set me free, unbreak me  
Save me, get me out of here and take me home  
Cogita rationabilis, carpe vitam honorabilis  
Save me, set me free, unbreak me  
Save me, I'm waiting here please take me home

Thanks to you I saw places that I never knew  
That one moment in time made all difference in my life  
Being away from you makes me feel the darkest shade  
of blue

How I hope that you are near so you can get me out of  
here

Won't you save me, set me free, unbreak me  
Save me, get me out of here and take me home  
Cogita rationabilis, carpe vitam honorabilis  
Save me, set me free, unbreak me  
Save me, I'm waiting here please take me home

Say you'll be here, say you'll be here, say you'll be here

Won't you save me, set me free, unbreak me  
Save me, get me out of here and take me home  
Cogita rationabilis, carpe vitam honorabilis  
Save me, set me free, unbreak me  
Save me, I'm waiting here please take me home
