The candles burn, the luminous eye calls your name  
A whispered word, the shadows dance once again  
The dragon moon, the sigil of night on your skin  
Crystal claws, sacred fire, the spell is cast on poison wings

The witch's grail, a cosmic cage for mortal men  
Feeble cries, a prelude to your dying breath

The tome of suns, magic spells and blackened cross  
Fallen stars, golden orbs  
Creation in his trembling hands

The serpent mage  
Calling you again  
Mocking you in death

Three horned wolves, desolate souls of worlds below  
Capricorn, servant of fire, chaos steed  
A trick of light, the twisted stare of sullen eyes  
Crescent moons, the riddle is set in grains of sand

Hidden hands draw near  
The acid touch of a million dying stars

Spinner of fate with cursed tongue, vision of the  
demon eye  
Shape of age, spectral form, scarlet king of sacred fire  
Profane beast, demon creed, brazen sage of infamy  
Libertine!  
Serpent mage, shadow spawn, soulless son of crimson  
dawn

The candles fade, the luminous eye hides its gaze  
A dying hymn, the shadows wane once again  
Velvet cloak, shards of grief on your skin  
The pit of time, welcomes you with icy winds

The endless fall  
Hounds of doom guide your path  
Acheron calls

Eternal night and unseen dawn

Hidden hands draw near  
The acid touch of a million dying stars

Spinner of fate with cursed tongue, vision of the  
demon eye  
Shape of age, spectral form, scarlet king of sacred fire  
Profane beast, demon creed, brazen sage of infamy  
Libertine!  
Serpent mage, shadow spawn, soulless son of crimson  
dawn
