Like a spotlight that breaks into the darkness
Like an arrow that's racing to it's target
I got you in my sight
I am fixed on you
And I can feel you calling lookin' for me too.

Chorus:
Collide, crash into me
Collide, I want to be broken by you and made brand
new
Collide.

In the aftermath of your hurricane
It won't be what I lost but I stand to gain
So bring your storm to me cause I know when it's
through

The clouds will roll away
As sky will turn to blue

Nothing's gonna stop me I know what I'm doin'
Make somethin' beautiful from out of the ruins
Chorus:
Collide, crash unto me
Collide, I want to be broken by you and made brand
new

Rearrange me!
Only you can save me!
Chorus2x
Collide!.....
